1.CountDigits

```
class CountDigits{
  public static void main(String[] args) {
    int num=1234;
    int digit,count=0;

    while(num>0){
      num=num/10;
      count++;
    }
    System.err.println(count);
  }
}
```

2.Reverse of Number.

```
public class RevOfNum {
  public static void main(String[] args) {
    int num = 1234;
    int digit;
    int rev = 0;
    while (num > 0) {
      digit = num % 10;
      rev = rev * 10 + digit;
      num = num / 10;
    }
    System.out.println(rev);
  }
}
```

3.Pallindrome Number.

```
public class CheckPallindrome {
  public static void main(String[] args) {
    int num = 12344321;
    int digit;
    int rev = 0;
    int original=num;
    while (num > 0) {
      digit = num % 10;
      rev = rev * 10 + digit;
      num = num / 10;
    }
    System.out.println(rev==original);
  }
}
```

4.Print Name 100 times.

```
public class NameNTimes {
  public static void main(String[] args) {
    String Name = "Varad";
    for(int i=1;i<=100;i++){
      int j=i;
      System.out.println(Name+"  "+j);
    }
  }
}
```

5.1 to N and N to 1.

```
public class Print1ToNto1 {
  public static void main(String[] args) {
    for(int i=1;i<100;i++){
      System.err.println(i);
    }

    for(int i=100;i>0;i--){
      System.err.println(i);
    }
  }
}
```

6.Sum of First N numbers.

```
public class SumOfFirstNNumbers {
  public static void main(String[] args) {
    int sum=0;
    for(int i=1;i<100;i++){
      sum=sum+i;
    }
    System.out.println(sum);
  }
}
```
